First time on the learning platform?

If you visit the learning platform aktiv.nada.at for the first time, create a user by clicking on **Login** in the upper right corner. A window will open (see picture on the right). For registration click on „**Neues Konto anlegen**“ (= „**Create new account**“) afterwards.

For registration, please choose a username without capital letters and a password with at least one lowercase letter, one capital letter, one special character and one number. Important: Select your **organization correctly** so that you can access the content which is important for you. For competitive sports (= „**Leistungssport**“), you select your federation and, if necessary, your sport among them.

Confirm E-Mail

After your registration you will automatically receive a confirmation link via email. Only after activation via the link, you can log in to the platform.

Please also check your SPAM!

First Login

Log in with your username and password. At the first login you must agree to privacy and data processing, then click to your dashboard in the top right menu. On the **dashboard** you can now see under „**Meine Kurse**“ (= „**My courses**“) in which courses you were automatically enrolled with your registration.

Start course

Click on the desired course. The course is divided into several modules that unlock gradually. To start a module, click on the **start button** or the link below it.

If a module is completed, a **check mark** appears on the right side. You are now allowed to open and start the next module.

Final-Quiz

After completing all modules, a final quiz is waiting for you - the quiz can be opened in the same way as the modules. The questions in the quiz must be **answered 100% correctly** to unlock the certificate. You can repeat the quiz as often as you like, there is no limitation.

Certificate

After the quiz, return to the course overview, now the link for the certificate is unlocked for download.

Attention: NADA Austria does **NOT** need to receive your certificate by e-mail. We can view your certificate online if required.

The certificate is valid for one year, after which you will receive an automatic invitation to a short knowledge check. If you answer everything correctly, the certificate will be valid for another year.
